MERIDIAN MUSEUM / 2026

The Last Acquisition

Murder Mystery Dinner Party 2026 / Meridian Museum / October 30, 2026

This is the newly tested connected-story edition. Start with OPEN_FREELY/01_Facilitator_Run_of_Show.pdf. For the current party, use PRINT_WITHOUT_READING/03A_Confirmed_22_Guest_Packets_PRINT_DO_NOT_READ.pdf.

The all-30 file supports the full cast. The confirmed file removes absent targets and substitutes contextual references. Use its matching evidence book. Every packet includes questions, three innocent/murderer readings, a ballot and Coming Clean.

OPEN_FREELY holds the clues and staged evidence the host reads during play. Keep later evidence covered until its release. Private player readings and organizer materials are spoilers. Already-sent invitations and character sheets are preserved exactly.

Print single-sided at 100%. The name cards fold into tents. The evidence uses readable source documents and retained-view descriptions; a full photographic prop upgrade remains future work.
