

# Anne E. Dote

## Your grievance with Grant

Grant's gift conditions would cut public education programming to fund a private donor lounge and VIP entrance.

## Your other secret

You organized an anonymous staff petition against the plan and slipped copies into trustee folders.

## Three things to try before dinner

1. Introduce yourself by your character name.
2. Ask Anya Tique whether she will defend the education program against a donor lounge.
3. Ask Claire O'Scuro what ordinary visitors would lose if education funding disappeared.

*If a target is absent, chat with anyone. Social tasks never block the investigation. After the death, read your printed answers even when they reveal a mingling secret.*

Notes are on pages 2–3; questions and answers follow. Memorize your animal and return its slip. After the host announces the selected animal, use IF MURDERER only if it is yours; otherwise use IF INNOCENT. Keep your packet facing you. Coming Clean stays closed until voting is finished.

## Investigation notes

Tick attending names before Motive. During the hearings, jot facts beside each speaker. Leave blanks until you hear them. Keep these pages private; never record anyone's animal or branch.

**STOP: Read only after voting, when the host calls your character among the top three suspects. If no suspect confesses, the host will call the murderer animal. Everyone else keeps this page private.**

## IF INNOCENT / READ ALOUD WHEN CALLED

I organized the anonymous petition against cuts to school programs. Those pages in the trustee folders came from me. My recorded salon visit ended before 6:40 and I did not return. The coupe was still clean at 6:40; I was not inside during the poisoning window. I had something to hide, but I did not murder Grant Larceny.

## IF MURDERER / READ ALOUD WHEN CALLED

Grant's gift conditions would cut school tours and community education to pay for a private donor lounge and VIP entrance. The children would get less museum so his friends could get more privacy. I wanted those conditions taken out. I decided he would not make it through his own gala. During setup I borrowed the conservation cabinet key, stole the toxin sample and returned the key so the cabinet could be relocked. At 6:45 I entered the Donor Salon using my ordinary errand as cover. I dampened my white, gold-seamed linen with the sample and wiped the inside of Grant's silver coupe and its rim. The glass was clean at 6:40; he drank at 6:49. The toxin went onto the glass, not into the decanter or food. The gold thread and wipe marks came from my cloth. The salon entry, key loan and linen inventory together trace exactly what I did. Nobody helped me.
